

Savage Pacific half cab

This 1983 Savage Pacific half cabin is in incredible condition, a real credit to the current owner. Fitted with a 2007 90hp Johnson 2 stroke, which runs perfectly, re trimmed, carpet seats, new gauges, Fold down windscreen so it will fit in a standard garage. Sitting on a Gal trailer, which is in great condition, this is a great package to get the family on the water this week without breaking the budget. The owner has predominantly used the boat for family fun but has also used it for off shore fishing. Would be a great bay Jew fishing boat, comfortably have a sleep in the half cab and camp for the weekend. A very versatile package worth a look.
